## Technologies

**Proficient:** Javascript, Node.js, Express.js, React.js, Redux.js, Sequelize, Axios, Git, HTML, CSS, PostgreSQL, MongoDB, React Native, Firebase, Google Vision, bootstrap

**Familiar:** Material UI, Figma, Webpack, Mocha, Chai, Jasmine, Phaser, Agile

## Projects

**JUNFUSUMA** | Sole Developer | https://bit.ly/2DSh7ly

*Built an E-commerce website showcasing design in 1 week*
• Sequelize, Express, PostGresQL as the backend and React, Redux, M as the frontend to create a functional E-commerce website
• Worked on cart component being able to add/edit and checkout
• Protected our routes to prevent malicious intent from a user -- making sure APIs are protected and allowing appropriate users to be able to do specific commands

**Bar Is Loaded** | Sole Developer | https://bit.ly/37krDfp

*A plate calculator app available in iOS & Android that offers the fastest calculations for the gym-- it's leg day, not brain day*
• Built a working app in 2 weeks using expo & react-native
• Created an easy to use modern interface with UX & UI in mind
• Applied debouncing to ensure there are no performance issues
• 500+ downloads the first week

**MTALens** | Developer | https://bit.ly/2L7GrU0

*An MTA app that is powered by the users that utilizes OCR technology to look up the next upcoming trains -- simple, easy, and fast*
• Used Firebase realtime database as the backend along with Google Vision to grab the letter to feed into the MTA GTFS API to get realtime data with React Native and Expo as the front end.
• Worked on accessing the expo camera that connected to Google Vision seamlessly
• Had a heavy hand on the UI and user experience to provide consistent styling throughout the app

## Experience

**Freelance Web Developer | Queens, NY | *Self-Employed***     November 2019 - Present
• Discuss requirements as well as design and functionality preferences with clients
• Develop modern UI using React, Redux, HTML, CSS/SCSS, Node.js, Express.js through MEAN/MERN stack
• Balance functionality with design to provide easy consumer experiences while being easy on the eyes

**Volunteer Income Tax Assistance Program | Queens, NY | *Intern***     January 2018 - March 2018
• Filed tax returns using software "Taxslayer"
• Provided free tax assistance to low income families
• Worked with small teams switching roles to ensure all information is accurate

**Uniqlo | Soho, NY | *Sales Associate***     October 2014 - April 2017
• Provided customer service by answering all questions or concerns
• Handled a multitude of tasks and meet deadlines
• Supervised and provided training for new associates
• Other duties included auditing cashiers, stock management, floor management

**China Grill | Queens, NY | *Assistant***     January 2009 - August 2013
• Handled calls and customers
• Stock management
• In charge of large sums of money in the register and reconciling; doing basic bookkeeping

## Education
